WESLEY KANYAMA

DATA ANALYST | EXCEL & POWER BI

analyst.wesley@gmail.com

GH github.com/sirWesleyK

Hello, I am Wesley!

I’m a Data Analyst with a Diploma in Data Science, working in FMCG sales and merchandising. I turn complex business data into clear insights that support commercial and operational decisions.

I’m comfortable with Excel, Power Query, Power BI, SQL and Python. I build automated reporting systems, clean and reconcile messy data, and design dashboards that show where sales are won and lost across routes, clusters and outlets.

I value accuracy, clear communication and reporting that saves teams time, so decision makers can focus on what matters most.

75%

Less time spent preparing recurring reports

80+

Retail accounts analysed and monitored

6

FMCG clients supported

WHAT I DO

THE AREAS WHERE I PROVIDE ACCURATE, AUTOMATED AND INSIGHT-DRIVEN SUPPORT, FROM RAW DATA CLEANING TO DASHBOARDS AND REPORTING SYSTEMS.

DATA CLEANING & TRANSFORMATION

- POWER QUERY IMPORT & SHAPING
- DUPLICATES, FORMATS, MISSING DATA
- MERGING MULTIPLE SOURCES
- RECONCILIATION & VALIDATION

ANALYSIS & MODELLING

- XLOOKUP, INDEX/MATCH, SUMIFS
- PIVOTTABLES & PIVOTCHARTS
- DATA MODEL & DAX
- SALES PERFORMANCE ANALYSIS

DASHBOARDS & REPORTING

- EXCEL DASHBOARDS
- POWER BI REPORTS
- BUDGET VS ACTUAL VISUALS
- DAILY, WEEKLY & MONTHLY REPORTS

REPORTING AUTOMATION

- EXCEL VBA MACROS
- INVOICE AUTOMATION
- AUTOMATED REPORT PIPELINES
- DATA REFRESH PROCESSES

PROFESSIONAL BACKGROUND

Operations Intern | Cailo Marketing Services

April 2025 – Present

I SUPPORT FMCG SALES AND MERCHANDISING OPERATIONS THROUGH SALES PERFORMANCE ANALYTICS, REPORTING AUTOMATION, DASHBOARDS AND DATA RECONCILIATION ACROSS MULTIPLE CLIENT ACCOUNTS.

- MANAGE AND ANALYSE SALES AND MERCHANDISING DATA ACROSS 80+ RETAIL ACCOUNTS
- CUT REPORT PREPARATION TIME BY 75% WITH EXCEL AUTOMATION AND POWER QUERY
- BUILT AUTOMATED EXCEL REPORTING FOR LOBELS CONFECTIONERY FROM WHATSAPP-BASED SALES REPORTS
- DEVELOPED AN INTEGRATED SALES REPORTING PIPELINE FOR LOBELS BREAD
- BUILT DASHBOARDS FOR REGIONAL TRENDS, PRODUCT PERFORMANCE, TARGETS AND STOCK AVAILABILITY
- IDENTIFIED LOST-SALES OPPORTUNITIES AND UNDERPERFORMING PRODUCT LINES
- IMPLEMENTED DATA VALIDATION AND RECONCILIATION ACROSS MULTIPLE CLIENT ACCOUNTS

CLIENTS SUPPORTED: Lobels | Cairns | Cangrow | Star Africa | Varun Beverages | Dairibord

TOOLS & PLATFORMS

Tools I use to clean data, build dashboards and automate reporting.

X

Microsoft Excel

Analysis, dashboards & reporting

PQ

Power Query

Data import, cleaning & shaping

BI

Power BI

Interactive reports & dashboards

fx

DAX

Measures & data modelling

VB

Excel VBA

Macros & process automation

PT

PivotTables

Dynamic data summarisation

SQL

SQL

Querying & data extraction

Py

Python

Data analysis in Jupyter Notebook

GH

GitHub

Project portfolio & version control

FEATURED WORK

REPORTING SYSTEMS THAT SAVE TIME

75% LESS TIME SPENT PREPARING RECURRING REPORTS

80+ RETAIL ACCOUNTS ANALYSED AND MONITORED

6 FMCG CLIENTS SUPPORTED

LOBELS CONFECTIONERY

Automated Excel Sales Reporting

Extracts and parses WhatsApp-based sales reports into structured datasets, then generates management-ready reporting.

- Daily and monthly sales trends
- Route, cluster and outlet performance
- Average daily sales
- Supply gap analysis

LOBELS BREAD

Integrated Sales Reporting Pipeline

Connects daily sales performance with competitor activity, Average Daily Sales Targets and Monthly Incentive documents.

- Streamlined weekly reporting
- Target achievement tracking
- Competitor activity in one view
- Connected management view

EXCEL PROJECTS

Selected work from my Excel portfolio on GitHub, covering data cleaning, analysis, dashboards and automation.

.XLSX

FMCG Company Monthly Sales Dashboard

Monthly sales dashboard for an FMCG company, built for performance monitoring.

.XLSX

Sales Dashboard

Dashboard that brings key sales performance metrics together in one view.

.XLSX

Budget vs Actual Visualizations

Charts comparing budgeted figures with actuals to highlight variances.

.XLSX

Data Cleaning

Raw data cleaned and standardised so it is ready for analysis.

.XLSX

Monthly Sales & Merged Monthly Sales

Monthly sales files consolidated into one merged dataset.

.XLSM

Invoice Automation

VBA-powered workbook that automates invoice preparation.

.XLSM

Automated Clear Button

One-click macro button that resets input fields for faster data entry.

.PDF

January Dashboard Analysis

Written analysis of the January dashboard results.

- Full projects and files: github.com/sirWesleyK/Excel-Projects

POWER BI PROJECTS

Interactive Power BI reports built to turn raw data into clear, decision-ready insights.

SURVEY ANALYTICS

Data Professional Survey Project

A Power BI report analysing responses from a survey of data professionals, built to make the results easy to explore and compare.

- Built in Power BI with data modelling
- Visuals designed for quick comparison
- Source file available on GitHub

FILE TYPE: .PBIX

HEALTHCARE ANALYTICS

Inpatient and Outpatient Dashboard

A Power BI dashboard comparing inpatient and outpatient activity, designed so patterns and trends are easy to see at a glance.

- Built in Power BI with data modelling
- Inpatient and outpatient views side by side
- Source file available on GitHub

FILE TYPE: .PBIX

Both reports are in my PowerBI repository: github.com/sirWesleyK/PowerBI

WHY

Work With Me?

- Data-Driven & Insightful
- Automation-Minded
- Strong Attention to Detail
- Clear Communicator

I combine analytical thinking, Excel and Power BI skills, and a drive to automate repetitive reporting, so teams get accurate numbers faster and know what to do next.

LET'S WORK TOGETHER

Ready for data you can trust?

I'm here to turn raw numbers into clear insights, build reporting that runs itself, and help your team make faster, better-informed decisions.

Let's connect and make your data work harder.
